BLANKETS AND ROLLERS

# REDUCE YOUR WATER LOSS THROUGH EVAPORATION BY UP TO 97%

-  A pool cover will save up to one million litres of water from evaporation over a twenty year period.
-  Minimize heat loss overnight, thereby maximizing heat retention and efficiency of heating system.
-  Reduces the running cost of a heating system by up to 50% per year.
-  Helps keep leaves, dirt and debris out of the pool.
-  Reduces chlorine and chemical consumption.
-  Comprehensive warranties available.

Use a roller combined with your blanket. A roller will aid in the removal, replacement and storage of the blanket. It also assists with increasing the longevity of the blanket life, by reducing drag on the coping when the blanket is being used. An over cover is provided with the purchase of every roller, so it is not necessary to move the blanket out of the sun after every use. The following roller options are available:

Fully automated options available.

REBATES AND GOVERNMENT INCENTIVES ARE AVAILABLE IN YOUR STATE FOR WATER SAVING DEVICES
